

Connect using Windows 10

1. In the lower right corner of the screen – click on **Wi-fi icon**

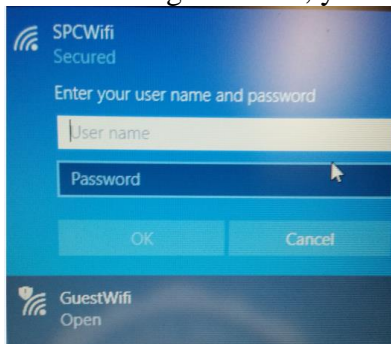

2. Networks available screen - locate SPCWifi

3. Ensure that the Connect automatically option is checked, click on **SPCWifi**

4. After clicking **Connect**, you will be prompted for user credentials to enter.

For SPC faculty and staff, enter your credentials in the following format:
Username: **admin\lastname.firstname**
Password: **normal network password**

For SPC students, enter your credentials in the following format:

Username: **your student number**

Password: **your SPC student password**

For UPC students, enter your credentials in the following format:

Username: **spcollege\####UPC ex. spcollege\1234UPC**

Password: **your UPC student password**

5. After entering your credentials, click **Connect** to continue

6. After the connection process finishes, you should show that you are connected to **SPCWifi**
