

CONNECTING TO SPCWiFi USING IPHONE

- 1.) Open the **SETTINGS** on your device. Be sure that 'Wi-Fi' is turned **ON**

- 2.) Then touch the Wi-Fi option on your phone. Find and click the SPCWifi network to connect.

(CONTINUE TO NEXT PAGE)

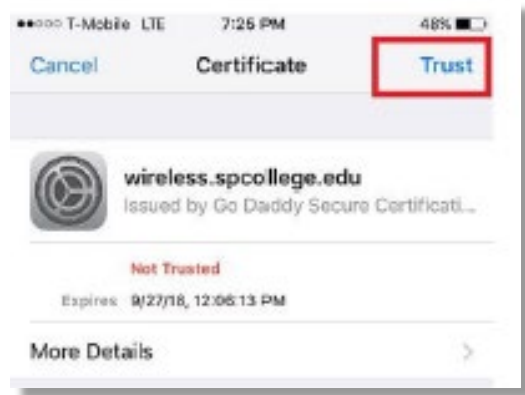

3.) After clicking **SPCWifi**, you will be prompted for the user credentials

SPC User Credentials

- For *SPC faculty and staff*, enter your credentials in the following format:
 - Username: **admin\lastname.firstname** (ex: **admin\doe.john**)
 - Password: **your SPC network login password**
- For *SPC students*, enter your credentials in the following format:
 - Username: **acad\student ID number**
 - Password: **your SPC login password**
- For *UPC students*, enter your credentials in the following format:
 - Username: **spcollege\####UPC** (ex: **spcollege\1234UPC**)
 - Password: **your UPC login password**

4.) After entering your credentials, click Join to continue to connect.

5.) It is possible that you may receive this message. Verify that the server name is **'wireless.spcollege.edu'** and then click **Trust**

If needed, how to forget a network in iOS:

1. Go to your device settings
2. Tap Wifi
3. Tap on the blue “I” in a circle next to the network you want to forget
4. Tap “Forget This Network”
5. Attempt to connect again.
